EXPERIENCE

DESIGNATION, Chicago — *UX/UI Designer*
July 2016 - November 2016
- Collaborated with design teams to build products from the ground up, starting in the research phase into completing user interfaces based on research.
- Completed two projects working closely with stakeholders and clients.

NWTN - *Research, UX design*
- Conducted extensive research and user interviews regarding sports related concussions and concussion prevention devices.
- Built out a high-fidelity prototype of 60 screens and annotated wireframes over the course of three weeks.

Rent Application - *Research, UX design*
- Interviewed landlords and property managers to improve the current state of an application management site.
- Created a complete remake of the current structural interface based on iterative designing and testing that the client adopted immediately.

General Assembly, San Francisco — *Immersive Full-Stack Web Development*
March 2016 - June 2016
- Fulfilled multiple roles in front-end and back-end development in individual and group settings.
- Learned many technologies and concepts in a fast paced, immersive environment.
- Completed four full-stack web applications, each in week long sprints.

To-Doodling - Ruby on Rails to-do web app

PlanTastic - Ruby on Rails event planning web app

Handprint - AngularJS travel guide web app

Anifull - Full-stack web app about animal facts, built with MongoDB and Express.js

Just Hair, Eugene, Oregon — *Hairstylist*
March 2015 - July 2016

Gervais Salon & Day Spa, Eugene, Oregon — *Hairstylist*
March 2013 - January 2015
- Completed an intense year long apprenticeship while frequently attending advanced classes in Portland.
- Attended an in-depth 13 week business development course that included daily tracking and increased my client retention by 30%.

EDUCATION

Northwest College, Eugene, Oregon
2011-2013
- Graduated from programs in hair design and dermatology.
