EXPERIENCE

DESIGNATION, Chicago
UX Designer | July 2016 - November 2016

- Collaborated with design teams to build products from the ground up, starting in the research phase continuing onto completing user Interfaces based off our user research.
- Completion of two projects working closely with stakeholders.
  - **NWTN** - *Research, UX design*
    - Conducted extensive research and user interviews regarding sports related concussions and concussion prevention devices.
    - Built out a high-fidelity app prototype and annotated wireframes.
  - **Rent Application** - *Research, UX design*
    - Interviewed landlords and property managers to improve the current state of an application management site.
    - Created a complete remake of the current structural interface that the client adopted immediately.

General Assembly, San Francisco
Full-Stack Web Development | March 2016 - June 2016

- Fulfilled roles in front-end and back-end development in individual and group settings.
- Completed four full-stack web apps, each in week long sprints.
  - **To-Doodling** - Ruby on Rails to-do web app
  - **PlanTastic** - Ruby on Rails event planning web app
  - **Handprint** - AngularJS Travel guide web app
  - **Anifull** - Full-stack web app about animal facts, built with MongoDB and Express.js

Just Hair, Eugene, Oregon
Hairstylist | March 2015 - July 2016

Gervais Salon & Day Spa, Eugene, Oregon
Hairstylist | March 2013 - January 2015

- Completed an intense year long apprenticeship that allowed me to frequently attend advanced classes in Portland and assist established stylists while building a clientele.
- Completed a 13 week business development course that included daily planning and tracking of my books to increase client retention.
